

Docket No.: 449122084500

AMENDMENTS TO THE CLAIMS

The listing of claims below replaces all prior listings and versions.

LISTING OF CLAIMS:

1. (Currently amended) A grounding switch, comprising:

a moveable contact piece, which passes through an electrically conductive encapsulating housing wall such that it is sealed by means of a sealing element,

the moveable contact piece being electrically conductively connected to the encapsulating housing wall via the sealing element in the form of a bellows and being guided in a journal bearing supported on the encapsulating housing, wherein

the moveable contact piece can configured to be driven by means of an electrically insulating handle.

2. (Currently amended) The grounding switch as claimed in claim 1, wherein the insulating handle is mounted and configured to such that it can slide in a guide element.
